SUMMARY

Computer Science Engineering student seeking an entry-level **Full-Stack Web Developer** role. Skilled in **React.js**, **Node.js**, **Express.js**, **MongoDB**, **Postman**, **Firebase**, **JavaScript**, **HTML5**, **CSS3**, **Tailwind CSS**, and **REST API Integration** with hands-on experience building responsive full-stack web applications. Strong understanding of web development, frontend-backend integration, and modern web technologies.

SKILLS

Full-Stack / MERN Technologies: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, Tailwind CSS, Responsive Web Design, Bootstrap

Programming Languages: JavaScript, Java, Python, C, C++

Web Technologies & Backend: REST API Integration, JSON, Postman, Firebase Real-Time Database, Firebase Authentication, React Router

Frontend Fundamentals: DOM Manipulation, ES6+, Flexbox, CSS Grid

Tools & Deployment: Git, GitHub, VS Code, Vite, Postman, Chrome DevTools, Vercel, Netlify

Office Tools: MS Word, MS PowerPoint

Cloud Fundamentals: Cloud Computing Foundations (Duke University)

EDUCATION

Mangalmay Institute of Engineering & Technology, Greater Noida

B.Tech in Computer Science Engineering

Greater Noida, Uttar Pradesh

Expected 2026

Sacred Heart School

Class XII (CBSE)

Mau, Uttar Pradesh

2020-2021

St. Xavier's High School

Class X (ICSE)

Jabalpur, Madhya Pradesh

2018-2019

LICENSES & CERTIFICATIONS

Exploratory Data Analysis – SSC NASSCOM (Aug 2026)

[View Certificate](#)

Exploratory Data Analysis – Accenture (Aug 2026)

[View Certificate](#)

Cloud Computing Foundations – Duke University (Apr 2026)

[View Certificate](#)

Cloud Virtualization, Containers and APIs – Duke University (Apr 2026)

[View Certificate](#)

PROJECTS

BargainCart – AI-Powered E-Commerce & Rental Platform | *Full-Stack Developer (Solo Project)*

[View Website](#)

- Developed a modern full-stack e-commerce and rental web application featuring a dual store system supporting Buy and Rent options.
- Implemented an interactive AI Bargaining Assistant for dynamic price negotiation within smart limits before checkout.
- Built a live Admin Dashboard for inventory management, real-time order/rental tracking with timestamps, and admin-controlled cancellations.

Tech Stack: React.js, Node.js, Firebase Real-Time Database, Firebase Auth, Postman, JavaScript, HTML5, CSS3, Vercel

ScoreHub – Live Football Scores & Statistics Platform | *Full-Stack Developer (Solo Project)*

[View Website](#)

- Developed a responsive football web application using React.js to display live scores, fixtures, standings, team details, and player statistics.
- Integrated football APIs to fetch real-time match data, league standings, top scorers, and detailed team information, tested via Postman.
- Built reusable React components and implemented dynamic routing for team pages, player profiles, and match details.
- Implemented Firebase Authentication with Google Sign-In for secure user access and personalized experiences.

Tech Stack: React.js, JavaScript, HTML5, CSS3, Firebase Authentication, Postman, REST APIs, Vite

AI-Powered E-Commerce Website with Dynamic Bargaining System | *Frontend Developer (Team Project)*[View Website](#)

- Developed a responsive AI-powered e-commerce web application using React.js and Next.js, enabling users to browse products and interact with a dynamic bargaining system.
- Designed and implemented reusable UI components to improve maintainability, user experience, and application scalability.
- Integrated REST APIs for product management, user authentication, and real-time price negotiation features.
- Built a mobile-friendly interface using Tailwind CSS, ensuring responsive design across different devices and screen sizes.

Tech Stack: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, REST APIs

RESEARCH PUBLICATION

AI-Powered Bargaining System for E-Commerce Platforms	Research Paper
• Authored a research paper on AI-powered bargaining systems for e-commerce platforms focusing on customer engagement and dynamic pricing. • Conducted literature review and analyzed research on artificial intelligence, negotiation systems, and consumer behavior. • Documented methodology, findings, references, and conclusions following academic publication standards.
